

Bug Report

This is our bug report sample and format we follow.

Date: DD/MM/YY Testing Cycle: First

Customer Name: Alex Customer Email: user@gmail.com

Defect #1	Reporte <mark>d b</mark> y QA			
Defect Summary	When you try to search columns in the Columns buttons in the find Columns search bar, it is not working.			
Defect Type	Functional			
Defect Severity	Medium			
Status	Open			
Browser / Os	Chrome (120.0.6099.225) / Windows			
Page / URL	https://example.com			
Steps to Reproduce	 Go to URL: <u>https://example.com/dashboards</u> Verify on the column from the column button. Try to Search Column. 			
Expected ResultShould be returned columns related to the search to in the search bar.				
Actual Result	Should not return columns related to the search text in the search bar.			

Attach screenshot or recording link as per bug.

Defect #2	Reported By QA				
Summary	When user hover over the tool tip (info icon) next to the metric queries count at the top of the data panel, the tool tip overlaps with the left-side menu bar.				
Defect Type	UI				
Defect Severity	Medium				
Status	Open 23/01/2024				
Browser / OS	Chrom <mark>e (</mark> 120.0.6 <mark>099.225)</mark> / Windo <mark>ws</mark>				
Page-URL	https://example.com/charts/6				
Steps To Reproduce	 Go to URL: <u>https://example.com/</u> Hover over the tool tip (info icon) next to the Metric Queries count at the top of the Data Panel Check the tool-tip 				
Expected Result	A pop-up should appear and not overlap the tooltip explaining that charts can contain a maximum of six metrics queries and 20 series.				
Actual Result	Tool tip is overlaps with left side menu bar

Defect #3	Reported By QA					
Summary	When the user deletes the project, the Success banner does ot display.					
Defect Type	Validation					
Defect Severity	High					
Status	Open 23/08/2023					
Browser / OS	Chrome (120.0.6099.225) / Windows					
Page-URL	https://example.com/					
Steps To Reproduce	 Go to URL: <u>https://example.com/</u> On project settings modal click on Delete Project button. Click on confirm in the confirmation modal 					
Expected Result	hould close the modal and redirect to projects page removing he project. Should display success banner					
Actual Result	Success banner does not display

Defect #7 R	eported By QA

Summary	When you click the Test button after entering the data, it displays the pop-up validation message, and when you click the Create button, it successfully creates a new entry. No validation is displayed when you click the Create button.
Defect Type	Validation

Defect Severity	High
Status	Open
Browser / OS	Chrome (120.0.6099.225) / Windows
Page-URL	https://example.com/
<i>Steps To Reproduce</i>	 Go to URL: <u>https://example.com/</u> I click on " +" icon to add new webhook When we select slack from dropdown and enter the different/random/invalid url and click on the test button, it will display the pop-up validation message. And instant, we click on create, and on the Webhook home screen, a new row with the webhook service name will appear.
Expected Result	When you click the Test button after entering the data, it displays the pop-up validation message, and when you click the Create button, it successfully creates a new entry. Validation should be displayed when you click the Create button.
Actual Result	No validation is displayed when you click the Create button.
